

June 13-14, 2017 Denver, CO

The Ports-to-Plains Alliance Corridor runs through North America's energy and agriculture heartland. Our region is a productive land, providing the resources that feed, clothe and power our three countries and beyond. Of course the Corridor is a vital transportation connection to deliver those goods to markets.

As energy and agriculture drive the economic engine of our region, it is important that our members are aware of the issues facing these industries. As a service to our members, the Ports-to-Plains Alliance is pleased to partner with Pro15 and Action 22 to host the annual Energy and Agriculture Summit June 13-14, 2017 in Denver, Colorado at the DIA Marriott Hotel. During this two-day conference, we will hear policy and industry experts tell us what is happening in energy and agriculture, what can we expect in the future and what can our communities do to capitalize on economic opportunities.

Not only are we assembling a terrific agenda of experts, but we expect about 200 grassroots leaders from throughout the corridor that extends from Alberta, Canada to Mazatlán, Mexico. Please review the opportunities and benefits for your organization to participate as a sponsor for this event.

For more information or to sign up as a sponsor, please contact Duffy Hinkle, Vice President of Ports-to-Plains, at 806-775-3373 or duffy.hinkle@portstoplastains.com.
